Verification Reports (check one)

- □ Hard copy of Verification reports is attached
- □ CD with Verification reports is enclosed.

This is to certify that the UID labels described above:

- 1. Conform to the requirements specified in MIL-STD 130N.
- 2. Bear 2D data matrix barcodes which have been validated and verified and found to conform to the requirements specified in MIL-STD 130N.
- 3. Contain no metallic mercury or mercury compounds, asbestos, magnesium alloys, cadmium, or chrome plating and that no Class I ozone depleting chemicals have been used in manufacturing.
